"CHINT T&D products launched operation in the thermal power generation substations in Japan"

Customer Satisfaction is Always Our Top Priority to Fulfill

Quick Response with Professional Service & Solution

Focus on SOCIAL RESPONSIBILITY

CHINT takes commitments to the environment and society. It is a key part of the company's development strategy. Great efforts have been devoted to being environment friendly, caring disaster & poverty, caring students & youth and charity.

Public Warfare

Disaster & Poverty Care

- Donation to Disasters urged by earthquake, tsunami, etc.
- Initiated China Red Ribbon Foundation

Students & Youth Care

- Initiated Chint College Student Fund
- Initiated Chint Chinese Good Students Prize
- Initiated Zhejiang Youth Innovation and Entrepreneurship Fund

Charity

- Initiated China Society for Promotion of the Guangcai Program (CSPGP)
- Participated in Hope Project

Environmental Sustainability

- Develop New Energy
- Smart Grid Program
- Product & Technology Innovation
- Operation & Management Improving

Around the World

Upcoming Events Canton Fair 2011

Where: China Import & Export Fair Pazhou Complex, Canton, China
When: 15-19, Oct.
Stand: Stand 1: Hall 5.1, Stand A13-16; B09-12
Stand 2: Hall 7.1, Stand A17-18

What	When	Where	Stand
RECA Energy Forum	22-25 Oct.	San Diego United States	No.611
Iran 2011	26 - 29 Oct.	Tehran Iran	----
fairtrade ufi	22-26 Nov.	Casablanca Morocco	----
CONCAPAN XXXI	9-11 Nov.	San Salvador El Salvador	----
Russia 2011	29 Nov -2 Dec	Moscow Russia	N37

Top Events

CHINT T&D Participated in the Australian Chamber Charity Night

September 17th, CHINT T&D participated in the famous AustCham charity event, the Great Southern Land Ball, in Shanghai. AustCham is an Australian chamber of commerce in Shanghai. Some of CHINT's partners are its members, like BHP Billiton, RIO TINTO. All the ball sponsorship & ticket incomes goes for supporting the poor children in China. CHINT takes one of the sponsorship programs to care and support the poor children.

CHINT Takes Actions for Smart Grid Development

Recently, China State Grid released the winner list of the smart grid project in Anhui Province. 18 Bays 110kV GIS of CHINT T&D wins a whole lot of the combination electrical appliance part of this project. Smart Grid is a strong trend in power sector aiming for more intelligent, efficient and secure configuration of power. CHINT T&D has invested abundant enterprise resources into this field. Innovation of intelligent automation products is an action undergoing.

CHINT T&D Developed Amorphous Alloy Core Distribution Transformer

Recently, CHINT T&D successfully developed oil-immersed type and dry type amorphous alloy core distribution transformers. Comparing with traditional distribution transformers, the amorphous alloy core distribution transformer has strong advantages in mechanical strength and anti-harmonics ability. And the no-load loss of amorphous alloy core transformer is only 20%-30% of normal silicon steel core transformers. The high-grade flame retardant ability and heat-resistant ability also ensures a long usage life. Amorphous alloy core distribution transformers are applicable for all places where common distribution transformers are used, especially suitable for places where are flammable and explosive.

12 Series Products of CHINT T&D Achieve Ukraine UkrSEPRO Certification

Several days ago, CHINT T&D got the notification from the Ukrainian certification center that, CHINT T&D's products were approved for the UkrSEPRO certification. The Ukrainian certification center is one of the top authoritative organization in power sector in Ukraine. The acquisition of this certification will greatly promote CHINT's marketing development in Ukraine. The 12 certified products include: transformers, GIS, circuit breakers, isolating switches (disconnectors), current transformers, voltage transformers (potential transformers), reactors, capacitors, insulators, fuses, surge arresters and switchgears.

Business News

Netherlands National Grid Company

>>> Power Transformer Order Secured

- Transformer & reactor orders from Costa Rica, Australia, etc.
- Dry-type transformer orders from India, Rwanda, Indonesia, etc.
- Disconnector orders from Russia, Vietnam, etc.
- VCB orders from Poland, Uruguay, Bulgaria, Indonesia.
- Surge Arrester & Insulator orders from Estonia, Finland, Japan, etc.

News

CHINT Transformers Launched Operation in Finland

By August, CHINT has fulfilled on-site installation and commissioning of 115kV 115MVA power transformers in Finland. The Finland project was assigned by the famous Canadian Mining Corporation...It took less than one month for the on-site installation...are fully consistent with Canadian CSA standards and American ANSI and IEEE standards...<more>

CHINT T&D Expands Market in Europe

The 400kV power transformer contract between CHINT T&D and Serbia Elektromreza Srbije (EMS) is processing smoothly after signing the contract in early March. Through the global market development in recent years especially after the financial crises in 2007, CHINT T&D has gained a booming...<more>

CHINT T&D Contracts with Netherlands Grid and Energy Company

In early July, CHINT T&D officially signed cooperation contract with a famous National Grid and Energy Distribution Company from Netherlands. The new partner of CHINT T&D is headquartered...The contract with this National Grid and Energy Distribution Company refers to the engineering, manufacturing...and...<more>

CHINT T&D Exported Transformers to Japan

CHINT T&D contracted with one of world's largest power rental companies in July. The contracted project refers to supply 66kV power transformers to one of the...In recent years CHINT T&D obtained strong developments in Asia-pacific markets, especially for Australia, India...exporting transformer series products to Tokyo power generating and supplying market is another...<more>

Equipments for Ukrainian Kiev Airport Are Ready For Delivery

The 126kV GIS and 110KV 25MVA power transformer for Ukrainian Kiev Boryspil International Airport are ready for delivery... The Kiev Boryspil International Airport project took three months for CHINT T&D to fulfill the production...CHINT T&D will send professional engineers to Kiev for the on-site...<more>

Employee & Team

Outward Bound Launched for New Comers of 2011 Graduates

Recently, CHINT T&D held the outward bound for its 140 new comers of 2011 graduates. They totally have four training programs aiming at improving the capabilities of teamwork, leadership and communication skills. CHINT T&D holds outward bounds annually for new comers to welcome for them being as a new member, help them to know about each other as well as to improve some of their capabilities. And they actually enjoyed it much, check out what one of them said:" The sky ladder program is cool risky. There are totally 6 stairs. My partner and I finally got to the 5 and we really got worn out. It's cool challenging, gosh we like it."
